PETITION UNDER 37 CFR 1.377

**REVIEW OF DECISION REFUSING TO ACCEPT AND RECORD PAYMENT OF A
MAINTENANCE FEE FILED PRIOR TO EXPIRATION OF PATENT**

This is a petition to the Director to accept and record payment of a maintenance fee for the above patent. A check for the fee set forth in 37 CFR 1.17(g) (\$200) is enclosed.

Statement of Facts

On March 25, 2011, a maintenance fee payment was filed by deposit with the United States Postal Service. The payment included a cover sheet (Exhibit A), and a

200.00 OP

check for the necessary fees (Exhibit B). The deadline for filing a payment with surcharge was March 25, 2011.

On the cover sheet there was an inadvertent and unintentional error. In the first paragraph an incorrect patent number "6458306" was shown. However, the correct patent "6537940" number was shown on the header at the left top corner of the cover sheet, and on the memo line of the check. The correct Serial Number, 09/636157, was also shown on the cover sheet below the patent number.

A Notice Of Non-Acceptance of Patent Maintenance Fee was mailed on April 6, 2011 (Exhibit C). In summary, payment was attempted for the incorrectly shown patent, 6458306, for which a maintenance fee was previously paid. Accordingly, the payment was refused.

Point to be Reviewed and the Action Requested

The Director is respectfully requested to review the attempted payment and non-acceptance to the wrong patent, and the refusal to accept payment for the correct patent. Correct mandatory identifiers (patent number, application number) were on the cover sheet. The correct patent number was also on the check. Except for the incorrect identification in the first paragraph of the cover sheet, no patent number, nor application number, refers to the incorrect patent. It is believed that there are sufficient grounds for the Director to accept payment of the maintenance fee payment to Patent Number 6537940.

The Director is respectfully requested to accept and apply the maintenance fee payment to Patent Number 6537940.

Request for Refund of Petition Fee

It is believed, that in light of the correct patent number and application number at the head of the cover sheet, and the correct patent number on the check, it was clear to the Office that these were the correct indications, and not the lone incorrect patent application number in the paragraph text. Discovery by the Office that no payment for the incorrect patent was due should have alerted the Office to the obvious error.

A refund of the petition fee is requested, since it is believed that the refusal to accept and record the maintenance fee to the correct patent resulted from an error by the Office.

Respectfully submitted;
